The components description of the product and the relevant report No.:

Note: The Test summary is based on the component test reports e.g. from TÜVs, SGS, ITS, UL etc... provided by the applicant. The respective test houses of the component test reports are fully responsible for the contents of the test reports. This report is the result of a single examination of the object in question and is not generally applicable evaluation of the quality of other products in regular production and does not authorize the use of a TÜV NORD Group label.
